HUNS RESUME OFFENSIVE ON WEST FRONT

Enemy Loses Men but Gains

The armed mercantile cruiser Moldavia was torpedoed and sank last Friday morning.

There were no casualties among the crew, but of the American troops on board 56 have not been accounted for. It is feared they were killed in one compartment by the explosion.

The Moldavia was torpedoed with

out warning. It was a moonlight night and although a good lookout was kept the attacking submarine was not sighted before the torpedo struck.

Most of the men aboard were in their hammocks when the explosion occurred amidships. The sailors and soldiers alike showed no panic, although many were injured.

HUNS RESUME

Germany's great offensive on the western front has been resumed. With only brief artillery preparation, two blows have been struck by the Teuton

armies, which have been reorganized since disastrous losses were inflicted on them by the French and British during the Picardy and Flanders battles in March and April. One attack

was on the line from Voormezele to Locre, southwest of Ypres; the other on a 35-mile front from Pinen, north of Soissons to Rheims. This is known

BREAKING THE LAW

Judging from reports from different councillors at the last few meetings of the council, there appears to be a wholesale disregard of many of our town by-laws now in existence. Chickens and cattle are still running at large, and now it appears that scores of people are paying little or no attention to the law regarding the using of the town water for gardens.

This is a serious state of affairs. Too often the people are inclined to treat such by-laws more or less as a joke. It may be that this is the case because these councillors feel they know the town officials, so well that they can monkey along with them from time to time and get away with it. The some people would no doubt hold "Arrest him" if he heard of some fellow violating the prohibition act, and loss sight of the fact that bootlegger was doing no more than they themselves are doing, viz., breaking the law.

From all accounts it is the intention of the council to see that these by-laws are enforced in future, and we would strongly advise our readers to be a little more careful lest they have some additional expenses added to the present cost of living.

19-YEAR OLD CALL

In another column of this issue the dominion Department of Justice has an advertisement fully explaining the Military Service Act as it applies to all male British subjects in Canada who were born on or since the 13th day of October, 1897, who have attained the age of 19 years. According to the Act all such, unless in other classes exempted, must register on or before the first day of June next. Failure to report within the time limit will expose the delinquent to severe penalties.

These provisions of the advertisement are fully explained in the advertisement and we would advise all boys over 19 to read it over carefully.

It might also be pointed out that if you are not 19 years old on the 1st, you must register within ten days after you do reach that age.

School children claim they know now why Russia is always distinguished from other countries on the map by being colored yellow.

Don't get confused about this registration business. Those who must register before the 1st are all male "British subjects" over 19 years old, unless otherwise liable for the first call. For the registration on June 22nd every male and female over sixteen years of age living in Canada on that day, no matter what their nationality, must register.

"Hat more spuds," says the government, "and conserve the meat." But when a man visits Medicine Hat and offers these several eyed nuggets to the public at a legitimate price he is arrested. However, either the magistrate's heart was in the right place or his potato bin was getting low. He dismissed the case. The news hit the mail on the head when it hints that if he had been warned of the price he would not likely have been molested.

The question as to whether or not shipments of grain which originated before March 15, but were not completed before that date, should bear the advanced freight rate, has finally been settled by a ruling of the board of railway commissioners which states that "on grain, and especially wheat shipped before March 15 last, are to be shipped within six miles from the stop-over point, the shipment

shall be entitled to the balance of the through rate existing at the time of the original shipment.

Grow Vegetables and Roots to Save Grain

Roots and vegetables are not replacing cereal grains in this country to anything like the extent to which they are capable. We are told that the people of Germany and the prisoners of war there are being fed largely upon turnips, spuds. To save the grain and meat for hungry France and Italy, we must fight the enemy with his own weapons in this food problem and grow up our spuds and vegetables.

On thousands of farms in Canada, where roots would grow well, there is no turnip. It is claimed that root crops involve too much labor. It is quite true that if they are grown on a large scale, much labor is required, but a small patch in every farm would help wonderfully. Hop are often wintered on expensive grain when, if roots were fed in conjunction with grain, much less grain would be required. A small area of root crops can easily be cared for at times which will not interfere with sowing and harvesting. A small patch with a little grain will produce thirty pigs much more cheaply than grain alone. This is not only an opportunity for patriotic service but a good business proposition and means more economical production of pork and added saving of cereal grains.

FLAX SEED PRODUCTION.

The colonial secretary has requested that publicity be given to the fact that his arrangement has been made with the Wayland Company of Winnipeg, to carry out the British government's program for flax seed cultivation in Canada. It is represented that the present situation in Russia and the greatly increased national demand for aeroplane material make it essential that every effort should be put forth to increase the cultivation of flax within the British Empire. Great importance is attached by the war office to the success of Col. Wayland's efforts to the end that the cultivation of flax seed in Canada receive all possible skill and care from the farmers concerned.

Noted French Violinist Coming

Ferdinand Fillion Heads Company of Artists at Chautauqua

FERDINAND CONCERT PARTY.

A real musical treat awaits Chautauqua audiences in the coming of the Fillion Concert Party on the second day. This company of three eminent musical artists in both programs feature the music of the masters.

Ferdinand Fillion, who heads the organization, is a French violinist who has attracted unusual press comment through his mastery of the violin. He brings to Chautauqua a famous old de Sola violin, made in the 16th century.

Pera Götter, dramatic soprano, was formerly with the Chicago Opera Company and is noted for her richness of unusual warmth and brilliancy. Edna McEachern, pianist and accompanist, formerly of the Moscow Conservatory of Music, is the third member of this splendid organization.

Ladies Festival Orchestra Coming

Splendid Chicago Organization Closes Chautauqua with Two Programs

LADIES' FESTIVAL ORCHESTRA.

The Ladies' Festival Orchestra comes to the Dominion Chautauqua with two programs of splendid, joyous music. For a good many years this sterling Chicago organization has been one of the "head-liner" attractions over the big Chautauqua circuit of the United States.

The programs of these six charming and talented young ladies are of infinite variety. They feature readings, orchestral numbers, songs, instrumental solos, duets, quartets and featured selections. There is something in these two programs of the last day for every one, from the most musically critical to those who like a touch of real "jazz" music.
